by Coppercraft® @ Milford Collection

Welcome to our 2023 catalogue

The Milford Collection are delighted to announce the acquisition of the Pure by Coppercraft range. As you may know, Tony & Deb at Coppercraft have decided to retire this year and we are very happy that the brand created by the Coppercraft family company in 1973 is being continued by Milford Collection, another family owned giftware company with similar values.

Our family run firm has been supplying quality & innovative gifts since 1985. We pride ourselves on our excellent service and quality products.

All products are individually bar-coded to integrate with EPOS systems.

All our jewellery conforms to UK & EU regulations.

Magnets

Copper

by Coppercraft® @ Milford Collection

HOW IT WORKS

It is thought that the gentle magnetic flux polarises the blood as it flows past, enabling oxygen to be carried around the body and toxins removed more freely.

The magnets we use are:-

MAGNETIC HEMATITE

A naturally occurring substance that can be ground and reformed into magnetic beads giving a gentle flux of 500-1,000 gauss

NEODYMIUM MAGNETS

A more powerful flux of between 1,500-2,000 gauss

FAR INFRA-RED

An invisible part of the electromagnetic spectrum, penetrates more deeply

GE32-GERMANIUM

Negative ion Germanium to counteract the positive ions found in and around office equipment and computers.

COPPER

Not magnetic but therapeutic. The skin is thought to absorb tiny particles of copper forming salts which replace deficiencies in affected joints.

DO THEY WORK?

Millions of our customers believe they do!

Magnets should not be worn by people with pacemakers or whilst pregnant.

Copper

Far Infra-Red
